#001-61218 '32 Ford S/S pinched, 21.5" wide GT2 spreader bar: \$104.95

GT2 '32 S/S Front Spreader Bars: We now offer several styles of front spreader bars including the straight design that features built-in turn signals. The stainless steel bar is polished and the turn signal lamps come in either clear or amber plastic.

GT2 Spreader Bar License Plate Brackets: These brackets were originally designed for our straight front spreader bar with built-in turn signals. In reality they will fit any straight spreader bar that is 1.5" in diameter and cleverly mounts to the backside of the tube.
#001-62709 License bracket: \$72.00 pr.

GT2 S/S Front Spreader Bar: This polished stainless steel piece is top of the line and features full radius investment cast flanges. The design features "blind-hole" back mounting, fasteners (sold separately) that do not show from the front side at all...very cool.

GT2 S/S Front Spreader Bar Fasteners:
#001-61222 Front blind-hole fastener: \$10.95 ea.
