# HOT ROD FRONT BRAKES

Unpolished

## SO-CAL Speed Shop® Hot Rod Front Brakes:

Adding to the long list of our New Traditionalist™ product line is the Hot Rod Brake system. Concealing a disc brake inside a cosmetic aluminum drum cover is nothing new to the industry, but the superior construction of this assembly is what puts it in a class by itself. Check out the features and you'll see why we are so excited about this remarkable addition to SO-CAL Speed Shop's unique line of hot rod products and services.
