

Brake Pedal: This brake pedal offers the correct leverage for easy operation and is designed for a number of applications, including the SO-CAL Step-Boxed™ frame. The threaded end accepts the stock Ford-style pedal pad or any of the SO-CAL pedal pads.

- (A) #001-60651 Brake pedal chrome: \$143.94 ea.
- (B) #001-60652 Brake pedal: \$81.54 ea.
- (C) #001-60679 Clutch pedal chrome: \$143.94 ea.
- (D) #001-60678 Clutch pedal: \$81.54 ea.

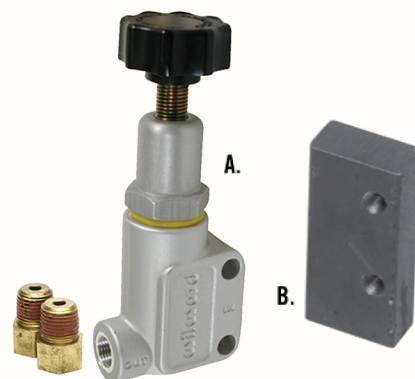

Universal Brake Pedal Push Rod: Because no two braking systems are the same our universal brake pedal rod is tapped extra deep so it can be cut to any length between 9 1/2" and 11 1/4". Its heavy duty construction insures perfect brake pedal application every time.

#001-62006 Universal push rod: \$39.54 ea.

Pedal Pads: SO-CAL now carries four styles of pedal pad, the original (A) "bull's-eye"-style pad, (B) the pyramid-design, (C) the SO-CAL Art Deco pad and (D) the new cast aluminum competition pad. All are engineered to be interchangeable with the stock Ford pedal.

- (A) #110-18801 Bull's-eye pad: \$18.95 ea.
- (B) #110-18802 Pyramid pad: \$18.95 ea.
- (C) #001-71500 Art Deco pad: \$23.94 ea.
- (D) #001-71502 Competition pad: \$29.94 ea.

Proportioning Valve: Manufactured by Wilwood this proportioning valve lets you fine tune the front-to-rear braking balance by proportionately decreasing the rear (or in some cases the front) brake line pressure. Pressure adjustments range from 100-1,000 psi.

- (A) #024-260-2220 Proportioning valve: \$53.17 ea.
- (B) #001-62138 SO-CAL Proportioning valve mounting pad: \$7.80 ea.

Residual Valve: Manufactured by Wilwood, residual valves retain a minimum brake line pressure to help eliminate excessive pedal travel in both disc and disc/drum brake systems. Available in two types: 2lb (blue), and 10lb (red). In most cases, a 2lb valve is good for all-disc systems, whereas we use both a 2lb and a 10lb in our disc/drum combinations.

NOTE: Valves now come with brass 1/8"-pipe to 3/16" inverted-flare fittings.

- (A) #024-260-13783 2lb (blue) valve (includes fittings): \$24.99 ea.
- (B) #024-260-13784 10lb (red) valve (includes fittings): \$24.99 ea.

Master Cylinder: This 15/16" bore dual master cylinder fits the SO-CAL Step-Boxed™ frame as well as most other chassis.

#001-62137 Master cylinder \$83.94 ea.
