**Fender/SO-CAL Instrument Panels:** You can't get any cooler or more retro than these new faux "Mother of Pearl" instrument panels developed jointly between Fender Guitar and SO-CAL. Available in both 5- and 6-hole styles to accept standard 2 1/16" gauges (often referred to as 2" gauges) and standard 3 3/8" speedometer and tachometer, they feature Mother of Pearl fascias in a choice of two dynamic finishes: gray or pearl. They also have the classic Fender logo engraved subtly on to the panel.
