*New*

**SO-CAL Model A-style Rear Crossmember:** Developed exclusively for SO-CAL, this Model 'A' transverse leaf spring crossmember is a direct replacement part. It has beautifully stamped sides welded to a center strip and is finished to the highest level of quality. It's also ideal for quick change rear end applications.

#001-62075 Model 'A' rear crossmember: \$399.99 ea.

**SO-CAL '28-'32 Ford Style Front Crossmember:** This stamped steel front crossmember, with stock location radiator mounting pads lowers your hot rod 1". Also, the spring mounting surface has 7° included angle (in relation to the radiator pads) eliminating shackle bind and improving caster adjustment.

#001-60611 Front crossmember: \$75.00 ea.
