Rear End Components

GT2 Rear Urethane "90" Bushing:

These bushings were designed as a suspension component, but over the years they have found their way into numerous hot rod applications, even motor mounts. They feature 90 durometer hardness and the 5/8" I.D. sleeves are 1 3/4" wide. (A) #001-61806 Bushing halves rear: \$1.20 ea. (B) #001-61810 Inner sleeve rear 5/8": \$2.50 ea.

GT2 S/S Rear 4-Link Kit: SO-CAL has developed this new triangulated suspension kit providing great ride, looks and simplicity of installation. The kit fits '32-'34 Fords and includes all fasteners, brackets, bushings, polished S/S bars and S/S adjusters.

#001-60654 GT2 S/S rear 4 link kit: \$649.95 kit

Covered Speedshocks in Steel: These nitrogen filled gas shocks are engineered specifically for hot rod applications and are offered in the "Standard" length of 9 1/4" closed and 14 1/4" extended. The distinctive design of the dustcover is reminiscent of the "airplane shocks" used on early hot rods during the 40's and 50's. Other features are 90 durometer replaceable 5/8" ID lower and 7/16" ID upper neoprene rubber bushings and they come finished in either high gloss SO-CAL red or show chrome.

(A) #001-60680 Covered shocks painted, steel: \$57.95 pr.
(B) #001-60682 Covered shocks, chrome, steel: \$99.95 pr.

SO-CAL Rear Shock Mounting Studs: Finally, we've filled a long-time need for a shock stud that allows ample clearance between the shock (especially covered shocks) and the rear end housing. They come complete with hardware.

NOTE: Do not use with coil-over shocks.

#001-62004 SO-CAL Rear shock mounting studs: \$21.95 pr.

'32 Ford Upper Shock Mount Kit:

#001-62166 Upper shock mounting bolt kit, with crossmember spacer, 7/16" x 5 1/2": \$34.99 kit

'32 Ford Upper Shock Mount Bolt Kit:

#001-62165 Upper shock mounting bolt kit, 7/16" x 5 1/2": \$9.99 kit

Model A Upper Shock Mount Kit:

#001-62162 Model A upper shock mount kit, with crossmember spacer: \$26.95 kit
